JOB APPLICATION FOR SOFTWARE ENGINEER

Dear Betterment,

About Me

Hello! My name is Penn.

I'm a New York City-based Software Engineer with a passion for clean code, good design, and useable interfaces.

Why You?

Nearly half of all working-age Americans have no retirement savings. None!

As I see it, Betterment is doing the public an invaluable service; removing the barriers and confusion from saving can truly change lives for the better.

Why Me?

At Saks Fifth Avenue, I build interactive projects with a strong focus on user experience, animation, and accessibility.

I agree wholeheartedly with Betterment's user-first mentality, and am genuinely invested (ha!) in the company's mission.

Thanks!

I will be happy to provide references upon request. Please feel free to contact me by email or phone (802.851.9576).

Many thanks for your time. I hope to hear from you soon!

Kindest Regards,

PENN ROSEN
